FRONTEND WEB DEVELOPMENT

Responsive web development: HTML5/Haml, CSS3/Sass, jQuery, AJAX, Bootstrap, Ruby on Rails

Interests: EdTech, Accessibility, OpenSource, Gamification, UX, UI, Growth, IoT

EXPERIENCE

Co-founder/Frontend Developer/Design, edSwap | September 2015 - Present

Design and frontend development of web app using Ruby on Rails. Haml, Sass. Currently in development, expected launch 2016.

Freelance Frontend Developer | September 2015 - Present

Portfolio available at cynthiastoneburner.com

Engineering Apprentice, Tradecraft | May 2015-September 2015

An intensive 16-week training program that immerses motivated engineers in a startup-centric environment and helps them build a portfolio through projects.

e-Learning Specialist, Fortech Solutions | 2012-2014

Created quizzes, polls, activities and games to encourage participation/engagement in live webinars and Moodle courses. Assisted with rollout of blended learning system. Researched e-learning technology, gamification, webinar support, QA, and video editing.

Foster Parent/Family Sabbatical | 2006-2015

Upon relocating to the bay area, I stepped away from work to start a family. During my sabbatical, I spent time learning new skills, volunteering, attending conferences and meetups.

Accountant/Special Projects, RSI Petroleum Products | 2003-2006

Integration of new business acquisitions. Office modernization (converted office from paper ledgers to spreadsheets, implemented internal network to share files). Accounting support, sales reporting and analysis, IT support, loss prevention.

EDUCATION

Valparaiso University — BS Business Administration | 1999 - 2001
